# NEW YORKER IS SIZING UP WEST

Represents Members of New York Stock Exchange Who Are Seeking Knowledge.

MINING IS GOTHAM'S GAME

BARELY BEGUN.

F. F. Ames, representing the brokerage firm of Ehrich, Hoehsladter & Co., 30 Broad street, New York, was in the city yesterday getting acquainted with Salt Lake brokers and the local mining situation. From here he is going to Nevada and California and on his way back he will likely take in a number of northern camps and Butte in particular. Mr. Ames has been and is a prominent figure on the New York curb, where he has been handling the business of the firm named as well as his own. Hochsladter & Co. are members of the New York stock exchange and now that that old institution has finally decided to handle mining stocks more extensively than at any time in the past, Mr. Ames has been sent west to establish connections and get acquainted, as far as possible, with the mines and mining regions.

Before pulling out for the west yesterday afternoon Mr. Ames stated that he looked to see Newhouse mines and a number of other Utah stocks listed on the exchange within a few weeks. In the case of Newhouse, he understood that stock would most likely be listed during the coming week. It has fully dawned on the New York stock exchange, Mr. Ames said, that there was more business to be done in mining than in railroad stocks, industrials and the usual run of bonds, and the old institution is now getting in line to corral that business and take it away from the curb as much as tion. From here he is going to Nevada

bonds, and the old institution is now getting in line to corral that business and take it away from the curb as much as possible. He believes that forty to seventy mining stocks will be listed, but to reach the limit will require some time, as the institution is an old and conservative one, not given to acting hastily.

The visitor states that, in his opinion, the activity in mining stock, particularly coppers, has barely commenced. Mining stock investments and speculations are rather new to New York investors, but the greatest kind of interest is manifested in them and that means that just as soon as people get their bearings and know what they are doing, the market will boil.

### HAVE FINE LEAD PROSPECT IN SOUTHERN COUNTRY

D. P. Jenson and Fred Lee are up from Beaver county with a fine collection of lead ore that was taken from a prospect of theirs which they have been developing as best they could for several years. One a business man and the other a farmer, they make no claims to being either miniag experts or mine promoters, but they are both satisfied that they have a property worth developing right and a property worth developing right and they have come to Salt Lake for the pur-pose of getting assistance. Their ore is on exhibition in the windows of a Second South street hardware house and speaks

for itself.

The ore comes from a four-foot /ledge that has been opened through an incline and drift for over 110 feet. It is not claimed that the ledge is all ore, but the character of rock exhibited, rock that will average over 60 per cent lead, with a little silver and gold, is scattered through the mass of vein filling, with occasional good streaks clinging to the footwall.

footwall.

"We have no fancy notions about the value of our ground," said Mr. Jenson, speaking for himself and partner, 'and we are not out for the purpose of holding somebody up. We are ready to treat anybody right that will give us a chance to develop the ground as it ought to be done. Mr. Lee, who understands the ground better than I do, says that a tunnel of 200 feet ought to open the vein at a vertical depth of equally as much as that, because the mountain is quite steep. We own five claims near Antelope Springs. We own five claims near Antelope Springs, a few miles from Black Rock, in Millard county."

### DOINGS OF UNLISTED STOCKS ON EXCHANGE Y. Rose D'field Triangle

The bears jumped on to Standard of Bingham, with both feet yesterday and succeeded in breaking the price from \$1.17% to \$1.05. After a sale at the latter figure, however, numerous bids of \$1.07% failed to bring out a share. Copper Glance sold at 27 and 27% cents. Ely Witch was delivered at \$1.50 and Honerine at \$1. Newhouse sold at \$20.25 and it closed at \$20.50 bid, \$21 asked.

Among the inactive stocks the following

closed at \$20.50 bid, \$21 asked.

Among the inactive stocks the following quotations were noted; Ohio Copper, \$5.00 to \$5.35; Federal Ely, 90c to 96c; Yerington Copper, 75c bid; McDonald Ely, \$1.40 asked; Cedar, 40c to 50c; Demijohn, 10c to 14c; Western Nevada Copper, \$1.45 asked; Yerington Ironsides, 23c bid; Uintah Treasure Hill, 40c to 65c; Emma Copper, 42%c bid; Keystone, 15c asked; Wheeler, 45c bid.

### WEEK'S ORE SHIPMENTS FROM PARK CITY CAMP

Following is the list of ore shipments from Park City last week, as reported by the Record. It will be noted that both Ontario and Daly make their appearance in the list and that New York Bonanza is omitted. It is understood that the New York ore was shipped to one of the samplers here instead of to the Park City

### UTAH MINING MAN **OVER FROM LOS ANGELES**

David Evans, who, up to a year or two ago, when he left Salt Lake for Los Angeles. was so prominently identified with Utah mining, is in the city for a few days. He was called here as a witness in the damage suit that has been on between the Grand Central company and the heirs of the Kelly estate in Tintic.

Mr. Evans was pleased to know that many of the mining propositions with which he had been identified and some of those which he sold before leaving here were giving good accounts of themselves. Real estate has been his hobby since going to the coast, and he reports having fared well in handling it. He has sold a great deal of property lately and has under consideration other deals. While he did not say so, it is cookies to doughnuts that Mr. Evans will be finding his way back to Sait Lake one of these days. He wore a rather homesick expression yesterday.

### COPPER STOCKS IN **BOSTON AND NEW YORK**

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, a feature that has just been added by James A. Pollock & Co. to its private wire service, and from which it is secured for use in this department of The Herald.

Boston, Feb. 26.—After the first heavy liquidation at the opening, the market rallied all through the list, just as we told you last night that it ought to. North Butte was by far the most active stock on the list and the buying would certainly seem to foretell some very good news to come out in the near future. Tamarack, which was very weak yesterday, was in good demand today. Copper Range opened off a point, but rallied easily to 32½. For tomorrow we expect to see higher prices in North Butte, Tamarack, Quincy and Shannon. The same old buying in Victoria was seen today and the stock looks well. Captain O. A. Tibbetts, the mining engineer, left for his home in Portland. Ore, last night, accompanied by Mrs. Tibbetts, who has been a Salt Lake visitor for several days. The captain will look into a big mining proposition in the northwest before returning.

The carload of ore mentioned yesterday as being on the market from the New York Bonanza, was sold yesterday on controls showing 127 ounces silver, 11 per cent lead and 60 cents in gold per ton. giving the rock a value of approximately \$130 a ton. The company must have netted close to \$4,000 for the lot.

Arthur W. Chesterton, the Boston director of the Consolidated Mercur company, who has been spending several days at the property with Manager George H. Dern, left for the coast yesterday afternoon highly pleased with conditions as he found them at the property.

Alice was quoted at \$5 in New York yesterday. Horn Silver at \$1.70 and Ontario at \$7.25.

Broker E. M. West has returned from his several days' trip into the Seven Troughs region much pleased with conditions as he found them there. He states that some of the properties are opening up in fine style and that a great many prospects appear to have in them the making of mines. He brought back a number of samples of rich rock and expresses the opinion that a great deal of high-grade will be shipped out of the district this year.

### GRAIN AND PROVISIONS.

Chicago, Feb. 26.—With the exception of a moderate show of strength about the middle of the day, due to covering by shorts, sentiment in the wheat pit was inclined to the bear side. The market opened easier because of liberal receipts in the northwest and continued favorable weather for the crop movement. At the end of the first hour prices rallied on reports that exporters were buying heavily of American wheat. An excellent demand for cash wheat at all the principal grain centers in this country also strengthened prices for a time. The firmness, however, was soon dispelled by the realizing sales of local longs. The market closed weak. May wheat opened 15 cent lower at 78% advanced to 78% afts and then declined to 77%. The final quotations were at 77% 477%. Clearances of wheat and flour were equal to 205,300 bushels.

bushels.
Increased local receipts and lower prices at Liverpool had a weakening effect on the corn market. The close was easy. May corn opened a shade lower at 47½, sold between 47% and 47%, 447%, and closed at 47%, 47½.

Oats ruled firm all day. May oats opened ½ lower to ½ higher, at 42%, 42%, sold up to 42%, and closed at 42%, 642½.

Provisions were weak on selling by pit traders who were bearishly inclined because of the liberal receipts of live hogs at western packing centers. At the close May pork was off 25 cents, at 16.40; lard was down 2½ cents, at 9.65.
